American Institute

Booth: 614

4801 S. University Dr, Ste 130
Davie, FL 33328

American Institute is an innovative multi-location educational company providing programs for the college educated adult in Cardiac Sonography and General Sonography delivered via a unique blend of online theory courses, hands-on labs and integrated clinical training. Our graduates all meet an ARDMS exam prerequisite upon graduation. Faculty and clinical mentors gain satisfaction from contributing to the development of future sonographers through teaching in our on-campus labs and mentoring in their own clinical environments. Learn about Mentor Rewards and explore faculty opportunities.

ARDMS

Booth: 529

51 Monroe St Plaza East One
Rockville, MD 20850
Email: morgan.kreutz@ardms.org
Website: www.ARDMS.org

The American Registry for Diagnostic Medical Sonography® (ARDMS), incorporated in 1975, is an independent, nonprofit organization that administers examinations and awards credentials in the areas of diagnostic medical sonography (RDMS), diagnostic cardiac sonography (RDCS), vascular interpretation (RPVI) and vascular technology (RVT). ARDMS has over 60,000 certified individuals throughout the world and is considered the global standard in medical ultrasound credentialing.

ARRT, The American Registry of Radiologic Technologists

Booth: 623

1255 Northland Dr
St. Paul, MN 55120
Website: www.rrt.org

New: RDMS certification can now fulfill the education requirement for ARRT Sonography certification under a recently introduced third pathway to the ARRT Sonography credential. Candidates must also meet the Standards of Ethics and pass the exam. This third pathway is in addition to the traditional primary pathway (requiring formal education) and post-primary pathway (requiring clinical experience documentation). ARRT's

“Sonography Suite” of three certifications — general, breast, and vascular — is built on the ARRT model: Education + Ethics + Examination = The ARRT Equation for Excellence.

ATS Laboratories, Incorporated

Booth: 508

PCI Medical, Inc.

Booth: 531

12 Bridge St, PO Box 188
Deep River, CT 06417
Email: info@pcimedical.com
Website: www.pcimedical.com

The GUS Vapor Control Systems are the right way to soak your transvaginal, transrectal and transesophageal ultrasound probes. They eliminate fumes from glutaraldehyde, Cidex OPA and other chemicals, while protecting your staff and patients from fume exposure. Fumes are drawn into the patented carbon filter where they are adsorbed and eliminated and clean air is returned to the room. NOW AVAILABLE - THE TD-100 - the first and only automated disinfectant specifically for TEE probes. The TD-100 completes a disinfection cycle in just 15 minutes and provides a printed verification.

SDMS Insurance Services

Booth: 301

11 South LaSalle Ste 2300
Chicago, IL 60603-1333
Website:
www.sdms.org/membership/liability.asp
Email:
diane@professionalriskadvisor.com

It is important to your career to acquire and maintain adequate professional liability insurance. It is also extremely important that you choose the appropriate type and amount of professional liability "coverage" so your interests are protected. The coverage that may be provided by your employer may not be sufficient in either scope or amount. Without your own coverage, and legal representation, will you have a say in how a claim against you is settled?

SDMS PAC

Booth: 301

Website: <http://www.sdmspac.org/>

The Society of Diagnostic Medical Sonography Political Action Committee (SDMS PAC) was established to assist in SDMS' efforts to promote issues related to Diagnostic Medical Sonography at the Federal level.

The SDMS PAC is an essential component in the Society's efforts to represent the interests of the membership. It enables the association to send a strong, collective, bipartisan message to members of Congress that the sonographer members of SDMS are committed to support those candidates in Congress that are engaged and supportive of our efforts to further the interests and policy positions of the SDMS.
